

RiverGreen

Medical Tower

REACHING
NEW
HEIGHTS!

THE PROJECT

Rivergreen, The New Capital's first ever Medical Center overlooking the green river, is located right in the heart of the Capital.

Built by one of Egypt's top developers - MBG's projects vary from everything between Medical, Residential, Educational, Architectural, Design, Construction, and Communities.

THE DEVELOPER

Master Builder Group (MBG) are the largest and best real estate developers at the Delta area. MBG'S projects vary between medical, residential, educational, architectural design, construction, and communities.

MBG maintains a full time staff of well trained real estate professionals who continually strive to provide top quality for our clients.

LOCATION, LOCATION, LOCATION!

Directly on Me7war El Amal, one of the most important main roads leading to and from the new Capital connecting you to everything - Rivergreen's location is strategic in practicality and in traffic. Right in the heart of the Capital's most famous commercial/administrative/medical area, MU23 is surrounded by the capital's most essential land marks including the green river, and the highest tower to ever be built in all of Africa. Being the only medical center around, Rivergreen will be serving the two largest residential areas in the Capital, the entire commercial/administrative/medical area, as well as serving areas outside the capital, like Madinty and Sherouk.

N O T A N E R

Rivergreen is not a Hospital.

That means:

No complications, hassles, or losses that come with having an ER.

As a Doctor, It will be your name that's branded, you won't be put under the umbrella of an already existig hospital name.

Your Marketing is Included!

Included in your maintenance fees will be all of your marketing.

Your name will be branded through our building screens, our Rivergreen Magazine, as well as an online application.
